4. FIRST-AID MEASURES

INHALATION: Remove person to fresh air. If irritation occurs or symptoms develop, get medical attention.
SKIN CONTACT: Remove contaminated clothing. Wash skin with soap and water. If irritation develops and persists, get medical attention. Launder clothing before reuse.

EYE CONTACT: Immediately flush eyes with water while lifting the upper and lower lids. Get medical attention if irritation persists.

INGESTION: Rinse mouth with water. Do NOT induce vomiting. Never give anything by mouth to a person who is unconscious or convulsing. Get medical attention if symptoms develop.

**Most important symptoms/effects, acute, and delayed:**
May cause mild eye and skin irritation. Ingestion may cause gastrointestinal distress with nausea and diarrhea. Inhalation of mists may cause upper respiratory tract irritation.

**Indication of immediate medical attention and special treatment, if necessary:**
Immediate medical attention is not generally required.

5. FIRE-FIGHTING MEASURES

**Extinguishing media:** Use water fog, alcohol foam, carbon dioxide or dry chemical to extinguish a fire involving this product. Do not use water stream as this may spread the fire.

**Specific hazards arising from the chemical:** Product is not flammable or combustible but may burn in a fire. Combustion products are hazardous and may include oxides of carbon.

**Special protective equipment and precautions for fire-fighters:** Firefighters should wear positive pressure self-contained breathing apparatus and full protective clothing for all fires involving chemicals. Cool fire exposed containers with water.

6. ACCIDENTAL RELEASE MEASURES

**Personal precautions, protective equipment, and emergency procedures:** Wear appropriate protective clothing and equipment as described in Section 8. Use caution – surfaces will be very slippery.

**Environmental Precautions:** Prevent spill from entering sewers and water courses. Report releases as required by local and national authorities.

**Methods and materials for containment and cleaning up:** Contain and collect with an inert absorbent material. Place in an appropriate container for disposal. Clean spill area thoroughly.

7. HANDLING AND STORAGE

**Precautions for safe handling:** Avoid the generation of mists. Avoid contact with eyes, skin and clothing. Wash thoroughly with soap and water after handling. Keep away from open flames and hot surfaces.
Conditions for safe storage, including any incompatibilities: Store in a dry, cool, well-ventilated area. Keep in original containers. Store away from oxidizing agents.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

<td>Synthetic Lubricant Blend</td>
<td>5 mg/m3 TWA Manufacturer</td>
</tr>
</tbody>
</table>

Appropriate engineering controls: Use with adequate general or local exhaust ventilation to minimize exposure levels.

Individual protection measures:
Respiratory protection: None needed under normal use conditions. If exposure levels are excessive and irritation is experienced, a NIOSH approved organic vapor/particulate respirator is recommended. Selection of respiratory protection depends on the contaminant type, form and concentration. Select in accordance with OSHA 1910.134 and good industrial Hygiene practice.

Skin protection: Impervious gloves recommended if needed to avoid prolonged skin contact.

Eye protection: Safety goggles recommended.

Other: None known.
