1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING

Identification of the substance or preparation
Glyceride Oils

Use of substance/preparation:
Lubricating grease for food grade 3H, H1 applications.

Company identification
Haynes Manufacturing Company
24142 Detroit Road
Westlake, OH USA

Emergency telephone number
Haynes Manufacturing Company
440-871-2188 Extension 195

2. HAZARDS IDENTIFICATION

GHS Classification: Not classified as dangerous under EC/GHS-criteria
Human Health Hazards: None
Physico-chemical and environmental hazards and effects: None

4. FIRST AID MEASURES

Swallowing
WHEN MOLTEN ONLY (molten product can cause thermal burns). Obtain medical attention immediately. This is not a toxic substance.
Inhalation
No emergency care anticipated. WHEN MOLTEN ONLY (molten product can cause thermal burns). Obtain medical attention immediately.

Skin
WHEN MOLTEN ONLY (molten product can cause thermal burns) – In serious cases, use emergency shower immediately. Immediately flush skin thoroughly with water for at least 15 minutes while removing contaminated clothing and shoes. Obtain medical attention.

Eye contact
WHEN MOLTEN ONLY (molten product can cause thermal burns) – Immediately flush eyes with water and continue washing for at least 15 minutes. Obtain medical attention.

5. FIRE-FIGHTING MEASURES

Flash Point: >93.4°C (200°F) PMCC, ASTM D93

Extinguishing media
Suitable: Treat as an oil fire:
- dry chemical
- carbon dioxide (in case of small fires)
- water fog
- foam

Unsuitable: Do not use water jet. Oil will float on water and can spread any fire.

Special firefighting procedures
Do not direct a solid stream of water or foam into burning material; this may cause spattering and spread the fire. If a rail or tank truck is involved in a fire, ISOLATE for 800 meters (0.5 mile) in all directions. Shut off fuel to fire if it is possible to do so without hazard. If this is impossible, withdraw from the area and let the fire burn out under controlled conditions. Withdraw immediately in case of rising sound from venting safety device or any discoloration of tank due to fire.

Special protective equipment for firefighters
Self-contained breathing apparatus.

Unusual fire and explosion hazards
Following products may be produced during a fire: Oxides of carbon.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions
Wear suitable protective equipment.
Environmental precautions
Avoid runoff to sewers or waterways. Dike area of spill to prevent spreading and pump liquid to salvage tank. Waste: avoid washing into watercourses. Use methods consistent with local regulations or incinerate.

Methods for cleaning up
Dike to contain spill. Absorb on inert material such as sand, earth, vermiculite. After cooling, scrape and/or shovel material. Stop the leak if it can be done without risk. Floor may be slippery; use care to avoid falling.

7. HANDLING AND STORAGE

HANDLING
Do not handle at temperatures >+40°C, unless wearing appropriate protective equipment.

Ventilation
General (mechanical) room ventilation is expected to be satisfactory for use at room temperature.

STORAGE
Storage requirements
Keep away from heat, sparks and flame. Do not store at temperatures: >+40°C without proper safety review of storage equipment. Store protected from light.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

</tbody>
</table>

OCCUPATIONAL EXPOSURE CONTROLS

Respiratory protection
None expected to be needed. If used in a way that generates a vapor/mist, wear an organic vapor respirator.

Hand protection/protective gloves
Wear oil resistant gloves. WHEN MOLTEN ONLY: wear gloves impervious to this material.

Eye protection
WHEN MOLTEN ONLY: Face shield or chemical splash goggles in case of splashing.

Skin protection
WHEN MOLTEN ONLY: Wear protective clothing, such as long sleeves to minimize skin contact.

Environmental Exposure Controls:
None expected to be needed.
9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance

Physical State: Semi-Solid
Color: White to light yellow
Odor: None or Mild Vegetable Oil
Odor Threshold: N/A

Important health, safety and environmental information

Flammability: No Data
Evaporation Rate: No Data
Decomposition Temperature: No Data
Flash Point: >93.4 °C (200°F) Method: PMCC, ASTM D93
Upper explosion limits: Not determined
Lower explosion limits: Not determined
Vapor Pressure: <0.1 kPa at 20°C
Density: ~0.8-0.9 g/cm³ at 25°C
Bulk Density: Not available
Solubility in Water: Insoluble
Solubility in organic solvents: Soluble
Kinematic viscosity: 10 – 20 mm²/s at 100°C
Boiling Point: > 230°C
PH: N/A
Specific gravity (H2O=1): <1
Partitioning coefficient log POW: >6 This product is soluble in oil.
Vapor Density: N/A
Percent volatiles: Nil
Autoignition Temperature: No Data
Melting Point: 35 - 80°C

10. STABILITY AND REACTIVITY

Stability: Stable

Conditions/Materials to avoid: Extreme temperature and direct sunlight/ultraviolet light and strong oxidizing agents.

Hazardous combustion products
Burning can produce the following combustion products: Oxides of carbon and Soot

Hazardous polymerization: Will not occur.
11. TOXICOLOGICAL INFORMATION

GENERAL
No evidence of harmful effects from available information.

12. ECOLOGICAL INFORMATION

This product is stable in water, and can be mechanically separated from water. The water may be suitable for disposal in a biological waste water treatment plant.

13. DISPOSAL CONSIDERATIONS

Dispose of in accordance with appropriate Federal, State and local regulations or incinerate.

14. TRANSPORT INFORMATION

ADR/RID
(when transported at <100°C) This product is not regulated by ADR.

Freight Description Road: 65 Solidified Vegetable Oil

IMDG/ICAO
This product is not regulated by IMDG/ICAO.

TDG-CANADA
This product is not regulated by TDG.

15. REGULATORY INFORMATION

EC/GHS classification
According to EC/GHS regulations this product is not classified or labeled

New Jersey Worker and Community Right-To-Know Act (Labeling Requirements)

<table>

EPA Hazard Categories (SARA 311, 312): None

WHMIS Classification: This product is not a WHMIS controlled product.

Chemical Inventory

Canada: The ingredients of this product are on the DSL.
Europe: The ingredients of this product are on the EINECS inventory.
United States: The ingredients of this product are on the TSCA inventory.
16. OTHER INFORMATION

Recommended uses and restrictions
Please consult the product and/or application information bulletins for this product.

Further information, Europe
Where appropriate, use CE approved personal protection equipment.

This Safety Data Sheet conforms to EC Directive 1907/2006 and amendments.

We believe the statements, technical information, and recommendations contained herein are reliable, but they are given without warranty or guarantee of any kind, expressed or implied, and we assume no responsibility for any loss, damage, of expense, direct or consequential, arising out of their use.
